Item 4 – Advisory Business

A) Firm Description

BTS was founded in 1979 by Vilis Pasts. Vilis Pasts owns 70% of BTS and Matthew Pasts owns 30%. BTS is federally registered with the SEC (Securities and Exchange Commission) as a Registered Investment Adviser. The primary services offered by BTS consist of asset allocation advisory programs ("Programs"), described below. Through these Programs, BTS may issue "buy" and "sell" signals or recommendations. Resulting exchanges among mutual funds or variable annuity sub-accounts ("Fund(s)") are generally performed by BTS for its clients on a discretionary basis, without prior notice to the Client. In limited situations, BTS exchange signals are implemented by the Client's financial representatives. Large quick profits are not the primary goal of the BTS Programs. BTS may, from time to time, make changes to these Programs with written notice to the Client.

Some Funds have 30 to 90 day holding periods and will charge a redemption fee if a sell signal is issued within the required holding period. While BTS attempts to inform the Client's financial representative of Funds that charge early redemption fees, it is the responsibility of the Client and their financial representative to determine if early redemptions fees may occur and to attempt to prevent them. BTS shall have no responsibility for early redemption fees that occur from the normal management of Client's account. Financial representatives are furnished with specific Fund restrictions upon request. BTS provides no guarantee of exchange execution on the signal receipt date. While BTS attempts to move all Clients within 24 hours of a signal, a delay of up to five business days could occur because of factors beyond the control of BTS. Such a delay could significantly affect performance. BTS assumes no responsibility for losses resulting from such delays. In addition, if a Fund places any new restrictions on Client accounts, both the Client and financial representative will be notified.

B) Types of Advisory Services

TACTICAL ASSET ALLOCATION PROGRAMS

Tactical Asset Allocation Programs: These Programs are tailored to a Client's specified investment requests by selecting one or more Funds to be invested in. The purpose of these Programs is to attempt to provide downside protection in a falling market and appreciation possibilities in a rising market, by exchanging investments in the Funds selected by the Client upon buy and sell signals provided by BTS.

Tactical Asset Allocation programs offered by BTS include: "High Yield Bond Fund Program" which utilizes a defensive (money market) Fund and aggressive (high yield bond) Fund; "Bond Asset Allocation Program" which utilizes a defensive (money market) Fund and two aggressive (government and high yield bond) Funds; "U.S. Government/Investment Grade Bond Fund Program" which utilizes a defensive (money market) Fund and an aggressive (U.S. Government or investment grade bond) Fund; and "Municipal Bond Fund Program", which utilizes a defensive (money market) Fund and an aggressive (municipal or tax-exempt bond) Fund. Each program maintains both its defensive and aggressive Funds in the same family of mutual funds or sub-accounts within the same variable annuity.

Seasonality Program: This program employs a seasonal market timing strategy. Client and their financial representative pick a defensive (money market) Fund that will be held during historically unfavorable market periods and an aggressive (stock) Fund(s) that will be held during historically favorable market periods with the goal of providing downside protection during unfavorable market periods and appreciation possibilities during favorable market periods by exchanging between the types of funds as signals to buy close to a favorable market period and sell close to an unfavorable market period are generated. The historically favorable market period is considered to be approximately November through April and the historically unfavorable market period is considered to be approximately May through October. BTS will not issue buy or sell signals on any pre-selected dates, but will issue buy and sell signals near favorable and unfavorable market periods as the BTS's investment models dictate. No buy signals will be issued during unfavorable market periods, as determined by BTS in its sole discretion. BTS reserves the right to issue buy or sell signals outside of historically favorable and unfavorable periods when economic indicators or market situations develop where BTS determines it to be necessary to issue such buy or sell signals.

Seasonality/High Yield Program: This program is a combination of the Seasonality Program and the High Yield Program, as discussed above. During the favorable market period, Client's assets are invested in accordance to the Seasonality Program. However, during the unfavorable market period, Client's assets are invested in accordance to the High Yield Program. If due to market conditions BTS issues a sell signal during the historically favorable period, client's assets may be invested in accordance to the High Yield Program for the remainder of the historically favorable period.

Seasonality/Bond Asset Allocation Program: This program is a combination of the Seasonality Program and the Bond Asset Allocation Program, as discussed above. During the favorable market period, Client's assets are invested in accordance to the Seasonality Program. However, during the unfavorable market period, Client's assets are invested in accordance to the Bond Asset Allocation Program. If due to market conditions BTS issues a sell signal during the historically favorable period, client's assets may be invested in accordance to the Bond Asset Allocation Program for the remainder of the historically favorable period.

"Select" Programs: Some Programs listed above have "Select" versions. "Select" Programs are designed to allocate Client's assets among Funds, and possibly exchange-traded funds, selected by BTS when BTS issues a buy signal. Client's assets are invested in money market Funds when BTS issues a sell signal. The number of Funds selected and the allocation percentages are determined by BTS. The selection of Funds is performed in accordance with the Program selected by the Client and the Client's investment objectives as indicated in the Client Financial Profile.

"ETF" Programs: Some Programs listed above will invest exclusively in exchange-traded funds ("ETFs"). The ETF Programs are designed to allocate Client's assets among ETFs selected by BTS based on BTS's buy and sell signals. The number of ETFs selected and the allocation percentages shall be determined by BTS. The selection of ETFs will be performed in accordance with the Program selected by Client and the Client's investment objectives as indicated in the Client Financial Profile. Transaction fees for the purchase and sale of ETFs are paid by BTS. The ETF Programs are likely to be more volatile than similar tactical programs that use Funds.

"Plus" Programs: Some Programs listed above also have "Plus" versions. "Plus" Programs are designed to give BTS the option to invest Client's assets in a high yield inverse Fund when BTS believes that high yields will decrease in value and issues a sell signal.

Rydex Funds Tactical Programs: Some programs listed above invest exclusively in Rydex mutual funds with assets custodied at Trust Company of America. These programs invest in the Rydex U.S. Gov't Money Market Fund, the Rydex High Yield Strategy Fund, and the Rydex Gov't Long Bond 1.2x Strategy Fund based on BTS's buy and sell signals, and the program selected by the Client.

STRATEGIC ASSET ALLOCATION PROGRAMS

The Strategic Asset Allocation Programs are investment programs allocating assets among Funds, and possibly exchange-traded funds, and asset categories utilizing a variety of mutual fund and variable annuity companies, based on Client's investment objectives and risk tolerance. After establishing the initial asset allocation mix, Client's account will be reallocated, or rebalanced if allocation percentages remain the same, on a quarterly basis within the first week of January, April, July, and October, in accordance with BTS's then current asset allocation recommendations. At BTS's discretion, Client's account may be reallocated at other times as required based on BTS's revised asset allocation recommendations.

Under the following Strategic Asset Allocation Programs, BTS selects the Funds to be used in the Program based on the Clients investment objective and risk tolerance.

Alpha SAA Income: Portfolio is designed and managed with the dual goal of providing a higher level of income while preserving capital and maintaining the possibility for moderate appreciation.

Alpha SAA Conservative: Portfolio is designed and managed with the goal of preservation of capital and inflation protection.

Alpha SAA Moderate: Portfolio is designed and managed with the goal of minimizing losses while maintaining growth opportunities.

Alpha SAA Growth & Income: Portfolio is designed and managed with the goal of capital appreciation and a moderate level of current income.

Alpha SAA Growth: Portfolio is designed and managed with the goal of long term capital appreciation.

Alpha SAA Aggressive Growth: Portfolio is designed and managed with the goal of capital appreciation with little concern about short-term fluctuations in value.

American Funds Conservative: The American Funds Conservative portfolio is designed and managed with the goal of preservation of capital and inflation protection using American Funds mutual funds selected by BTS.

American Funds Moderate: The American Funds Moderate portfolio is designed and managed with the goal of minimizing losses while maintaining growth opportunities using American Funds mutual funds selected by BTS.

American Funds Growth: The American Funds Growth portfolio is designed and managed with the goal of long-term capital appreciation using American Funds mutual funds selected by BTS.

American Funds Aggressive Growth: The American Funds Aggressive Growth portfolio is designed and managed with the goal of capital appreciation with little concern about short-term fluctuations in value using American Funds mutual funds selected by BTS.

Under the following Strategic Asset Allocation Programs, the Client selects the Funds to be used in the Program based on the Clients investment objective and risk tolerance.

Conservative: Portfolio is designed and managed with the goal of preservation of capital and inflation protection.

Moderate: Portfolio is designed and managed with the goal of minimizing losses while maintaining growth opportunities.

Growth: Portfolio is designed and managed with the goal of long term capital appreciation.

Aggressive Growth: Portfolio is designed and managed with the goal of capital appreciation with little concern about short-term fluctuations in value.

MULTI-STRATEGY PORTFOLIOS

The Multi-Strategy Portfolios are investment portfolios allocating assets among Funds, and possibly exchange-traded funds, using a combination of investment styles, including, but not limited to, Strategic Asset Allocation, Tactical Asset Allocation, and variations thereof, at the sole discretion of BTS. The Program is an investment advisory service designed to allocate Client's assets among Funds selected by BTS in accordance with the Client's investment objective.

After establishing the initial portfolio allocations, Client's account will be reallocated, or rebalanced if allocation percentages remain the same, on a quarterly basis within the first week of January, April, July, and October, in accordance with BTS's then current asset allocation recommendations. In addition, Client's account will have occasional allocation changes as BTS makes buy and sell decisions based on market conditions and BTS's underlying investment strategies. At BTS's discretion, Client's account may be reallocated at other times as required based on the BTS's revised asset allocation recommendations.

The following Portfolios are available based on the Clients investment objective and risk tolerance:

Conservative: Portfolio is designed and managed with the goal of preservation of capital and inflation protection.

Moderate: Portfolio is designed and managed with the goal of minimizing losses while maintaining growth opportunities.

Growth: Portfolio is designed and managed with the goal of long term capital appreciation.

Aggressive Growth: Portfolio is designed and managed with the goal of capital appreciation with little concern about short-term fluctuations in value.

CUSTOM MULTI-STRATEGY PORTFOLIOS

The Custom Multi-Strategy Portfolios are investment portfolios allocating assets among several Funds, and possibly exchange-traded funds, using a combination of investment styles, including, but not limited to, Strategic Asset Allocation, Tactical Asset Allocation, and variations thereof. Client selects which programs to utilize in their Custom Multi-Strategy Portfolio. Client must select at least one Strategic Asset Allocation program and at least one Tactical

Asset Allocation program. The Program is an investment advisory service designed to allocate Client's assets among Funds selected by BTS in accordance with the Client's selection of programs.

After establishing the initial portfolio allocations, Client's account will be reallocated, or rebalanced if allocation percentages remain the same, on a quarterly basis within the first week of January, April, July, and October, in accordance with the BTS's then current asset allocation recommendations. In addition, Client's account will have occasional allocation changes as BTS makes buy and sell decisions based on market conditions and BTS's underlying investment strategies. At BTS's discretion, Client's account may be reallocated at other times as required based on the BTS's revised asset allocation recommendations.

DIVERSIFIED INCOME PROGRAM

The Diversified Income Program is an investment program allocating assets among several Funds, and possibly exchange-traded funds, selected by BTS in accordance with the Client's investment objective as indicated below. Approximately 30% of assets will remain allocated to high yield Funds, approximately 30% will remain allocated to total return bond Funds, approximately 30% will be allocated to either high yield Funds or inverse high yield Funds based on BTS's buy and sell signals on the high yield bond sector, and approximately 10% will be allocated to either government Funds or inverse government Funds based on BTS's buy and sell signals on the U.S. government bond sector. These allocations may be adjusted at BTS's discretion. Client's account shall be rebalanced or reallocated to the above allocations on a periodic basis at BTS's discretion.

OTHER ACCOUNTS

Mutual Funds:

BTS is the investment advisor to the BTS Bond Asset Allocation Fund ("BAA Fund"). The BAA Fund is a diversified series of the Northern Lights Fund Trust, an Investment Company registered under the Investment Company Act of 1940. The BTS Fund seeks to provide total return. The BTS Fund invests at least 80% of its assets in bond instruments. BTS employs a proprietary financial research process, which includes: (1) top-down economic analysis, (2) quantitative research, (3) momentum forecasting and (4) technical analysis to assess trends, investment opportunities across the securities markets and to allocate the Fund's investment portfolio primarily between (i) money market instruments, (ii) U.S. Government securities and (iii) high yield bonds (or economically similar positions using derivatives).

BTS is the investment advisor to the BTS Diversified Income Fund ("DI Fund"). The DI Fund is a diversified series of the Northern Lights Fund Trust, an Investment Company registered under the Investment Company Act of 1940. The Fund seeks to generate current income with capital preservation as a secondary objective. Generally, 30% of assets will remain allocated to high yield bond securities and 30% will remain allocated to total return securities at all times. 30% of assets will be allocated to either high yield or inverse high yield securities, and 10% will be allocated to either government or inverse government securities.

Collectively, the BAA Fund and the DI Fund are referred to as the "BTS Funds" throughout the remainder of this Brochure. For additional information about the BTS Funds, please read the prospectuses for the BTS Funds.

UCITS:

BTS is the investment adviser to the Paretum BTS Tactical Fixed Income Fund ("BTS UCITS"), a sub-fund Investment Company with Variable Capital ("SICAV") under Luxembourg law, commonly referred to as a UCITS. Paretum is authorised as an Undertaking for Collective Investment in Transferable Securities (a "UCITS") in Luxembourg, and is promoted by BNP Paribas Securities Services, Luxembourg branch. The BTS UCITS seeks to provide total return. The BTS UCITS invests at least 80% of its assets in bond instruments. BTS employs a proprietary financial research process, which includes: (1) top-down economic analysis, (2) quantitative research, (3) momentum forecasting and (4) technical analysis to assess trends, investment opportunities across the securities markets and to allocate the Fund's investment portfolio primarily between (i) money market instruments, (ii) U.S. Government securities and (iii) high yield bonds (or economically similar positions using derivatives).

Sub-Advisory:

BTS has agreements with other investment advisers or institutional/high net worth clients, whereby BTS sells its advisory services, as consultation services, to the investment advisers or institutional/high net worth clients. BTS does not execute any exchanges under these agreements. Upon issuing new advisory recommendations, BTS notifies the investment adviser or institutional/high net worth client of the new recommendations. BTS also has sub-advisory agreements with other investment advisers to use our advisory programs on a custodial platform. BTS fees are negotiable under these consultation and sub-advisory agreements.

Private Fund:

On October 8, 1999, BTS established the BTS Tactical Fixed Income Fund LLC (formerly known as the BTS Asset Allocation/High Yield Fund LLC), a private investment fund (the "Private Fund"). The Private Fund's investment objective is to seek high current income consistent with the preservation of capital. The Private Fund seeks to achieve its investment objective by investing in a portfolio consisting primarily of lower-rated, high-yield debt in accordance with a tactical asset allocation strategy. BTS is the managing member and the investment advisor of the Private Fund and is responsible for the overall management, including determination of the Private Fund's asset allocation strategy and the selection, monitoring, management and replacement of the Private Fund's sub-advisor to select the Private Fund's portfolio securities. BTS clients may be solicited to invest in the Private Fund. The Private Fund, which is a Delaware limited liability company, is only offered to investors that are both "accredited investors" under Regulation D of the Securities Act of 1933 and "qualified purchasers" under the Investment Company Act of 1940.

Wrap Fee Programs:

BTS participates in wrap fee programs sponsored by broker-dealers, banks or other financial institutions ("Wrap Sponsors"). Pursuant to written agreements between BTS and Wrap Sponsors, BTS provides model investment advisory services to the Wrap Sponsor's clients. The terms and conditions of this relationship are determined by the Wrap Sponsor. The client signs an agreement with the Wrap Sponsor with the help of a Wrap Sponsor representative. Through this agreement the Wrap Sponsor obtains the information necessary to determine the client's suitability. The client's account and Funds will be held and cleared through a custodian and broker-dealer selected by the Wrap Sponsor. A comprehensive fee (a "Wrap Fee") generally includes trade execution, consulting, and custodial services performed or arranged by the Wrap Sponsor and the fee for BTS to provide discretionary model investment advice.

BTS will provide discretionary investment advice on the portion of assets delegated to BTS. This power and authority is granted by the client in the Wrap Sponsor's agreement. BTS will provide model trading instructions to the Wrap Sponsor or a third party as directed by the Wrap Sponsor who will be responsible for executing BTS's recommended trades. BTS has no responsibility for transaction execution.

The Wrap Sponsor representative is required to provide the client with a copy of BTS's disclosure brochure. For a complete description of the Wrap Sponsor refer to the Wrap Sponsor's Appendix 1 of Form ADV Part 2A.

C) Tailored Relationships

BTS does not make "buy" or "sell" decisions regarding individual securities for Clients' accounts, nor does it provide advice on the basis of the individual needs of its Clients. BTS advisory programs are not tailored to the individual needs of Clients. Investment restrictions for "Select" Programs may be made by Clients and they must be provided to BTS in writing.

E) Managed Assets

As of March 27, 2013, BTS managed approximately \$1,495,653,552 in assets for approximately 12,892 accounts. All of the assets are managed on a discretionary basis.

Item 5 - Fees and Compensation

A) Fee Schedules

Fee schedule for Tactical Asset Allocation Programs: Clients pay BTS an annual management fee calculated in accordance with the fee schedules below:

<u>Amount Under Management</u>	<u>BTS Management Fee</u>	<u>Representative Fee</u>
First: <\$100,000	1.25%	
Next: \$100,000 - \$249,999	1.00%	_____ %
Next: \$250,000 - \$499,999	.75%	(0% - 1.5%)
Next: \$500,000 - \$999,999	.50%	
Next: \$1,000,00+	.40%	

Fee Schedule for Strategic Asset Allocation Programs: Clients pay BTS an annual management fee calculated in accordance with the fee schedule below:

<u>Amount Under Management</u>	<u>BTS Management Fee</u>	<u>Representative Fee</u>
First: <\$250,000	.60%	
Next: \$250,000 - \$749,999	.40%	_____ %
Next: \$750,000 +	.30%	(0% - 1.5%)

Fee Schedule for the Multi-Strategy Portfolios: Clients pay BTS an annual management fee calculated in accordance with the fee schedule below:

<u>Assets Under Management</u>	<u>BTS Management Fee</u>	<u>Representative Fee</u>
First: <\$100,000	1.00%	
Next: \$100,000 - \$249,999	0.85%	_____ %
Next: \$250,000 - \$499,999	0.75%	(0%-1.5%)
Next: \$500,000 - \$999,999	0.50%	
Next: >\$1 Million	0.40%

<u>Assets Under Management</u>	<u>BTS Management Fee</u>	<u>Representative Fee</u>
First: <\$250,000	.85%	
Next: \$250,000 - \$499,999	.75%	_____ %
Next: \$500,000 - \$999,999	.50%	(0%-1.5%)
Next: \$1 Million +	.40%	

Under certain circumstances, BTS may agree to charge clients of certain sales representatives and/or broker/dealers less than its customary rate because of the volume of business referred to, or promised to be referred to BTS by such sales representatives or broker/dealers. Fees charged to pension plans, retirement plans, and institutional clients may be negotiable. BTS reserves the right to negotiate fees where there are multiple accounts for one person or within the same household which may, when consolidate, amount to over a breakpoint. Fees may vary depending on the Client's financial representative. As a concession to their clients, some third-party solicitors offer BTS's advisory services for a reduced representative fee. In addition, BTS may have agreements with certain broker/dealers or registered investment advisors to manage Client accounts through the broker/dealers' or registered investment advisors' custodian at a reduced advisory fee. In addition, generally the fee to the Client for BTS Programs is the same whether the Client comes to BTS directly or is handled through a sales representative. Nevertheless, the fees charged by BTS may be higher than that normally charged in the industry and that it is possible that the same, similar or significantly more extensive services may be available from other advisors at lower rates. Clients may purchase Funds directly without using BTS's Programs.

BTS FUNDS

Pursuant to an advisory agreement between the BAA Fund”) and BTS, BTS is entitled to receive, on a monthly basis, an annual advisory fee equal to 1.00% of the BAA Fund's average daily net assets. Pursuant to an advisory agreement between the BTS Diversified Income Fund (“DI Fund”) and BTS, BTS is entitled to receive, on a monthly basis, an annual advisory fee equal to 0.85% of the DI Fund's average daily net assets. For additional information about the BTS Funds, please read the prospectuses for the BTS Funds.

BTS UCITS

Pursuant to an advisory agreement between the BTS UCITS and BTS, BTS is entitled to receive, on a monthly basis, an annual advisory fee of up to 1.50% of the BTS UCITS average daily net assets.

WRAP FEE PROGRAMS

Per written agreements between BTS and Wrap Sponsors, BTS may receive an annual fee of up to 0.80% of the market value of the assets it provides services on. The exact fee calculation and timing of the fee to be charged will be determined by the Wrap Sponsor. The Wrap Sponsor will calculate and deduct the appropriate fees from the client accounts and remits those fees to BTS. For a complete description of the Wrap Sponsors' fees refer to the Wrap Sponsor's Appendix 1 of Form ADV Part 2A.

B) FEE PAYMENTS

Client accounts whose assets are held and maintained by a custodian other than Trust Company of America are usually billed annually. The annual fee for the first year is based on the total principal amount initially invested. The fee for subsequent years is based on the market value of Client's account(s) determined approximately 8 to 12 weeks prior to the renewal date. The fee for additional amounts invested is prorated for the remaining portion of the contractual year of deposit. Fees are payable (a) for the first year upon execution of the agreement, (b) for additional amounts when deposited, and (c) by each renewal date. If a Client converts to a Program that has a different fee schedule during the contract year, then a new contract date is established for another one-year period. The balance of the management fee not yet earned by BTS is used towards the management fee for the new one-year contract period. The unearned management fee of a converting account is prorated. A management fee for the new contract year, minus the unearned management fee, is due upon conversion. If a conversion to a program with a lower fee schedule results in an overpayment, then BTS shall issue a refund to the Client.

Client accounts whose assets are held and maintained by Trust Company of America as the custodian are billed quarterly. Quarterly fees may also be available for certain fund or variable annuity companies. The initial fee for the first calendar quarter is based on the total principal amount initially invested. Accounts established in the middle of a quarter are prorated for the remainder of the calendar quarter. The fee for subsequent quarters is based on the market value of Client's account(s) determined approximately the last week of the calendar quarter, for the upcoming quarter. The fee for additional amounts invested is prorated for the remaining portion of the calendar quarter of deposit. Fees are payable (a) for the first quarter upon execution of the management agreement, (b) for additional amounts when deposited, and (c) by each calendar quarter. The quarterly fee is calculated and deducted by the custodian from Client's cash or money market fund, or an alternative fund that is associated with the management agreement. If the Client converts to a program that has a different fee schedule during the calendar quarter, then the balance of the management fee not yet earned by BTS is used towards the management fee for the remainder of the calendar quarter. The unearned management fee of a converting account is prorated. A management fee for the remainder of the calendar quarter, minus the unearned management fee, is due upon conversion. If a conversion to a program with a lower fee schedule results in an overpayment, then BTS issues a refund to the Client.

C) OTHER FEES

In addition to the advisory fees paid to BTS, Client will also pay fees and expenses at the Fund level (e.g., advisory fees, shareholder service fees, etc.) and may pay a sales charge when purchasing or redeeming Fund shares. Upon Fund exchanges, an exchange fee may be charged by the custodian bank of each Fund which is deducted from the proceeds of liquidation before reinvestment. In addition, some Funds may charge early redemption fees. Early redemption fees can

occur due to the timing of BTS signals, withdrawals by the Client, and from BTS redeeming advisory fees. At BTS's discretion, Client may incur a \$50 service charge if Client changes from one BTS Program to another at any time other than at renewal. In selecting the Funds, Client should review carefully each prospectus for possible Fund restrictions on exchanges as BTS assumes no responsibility for potential or actual losses resulting from any such restrictions. While BTS attempts to inform the Client's financial representative of Funds that charge early redemption fees, it is the responsibility of the Client and their financial representative to determine if early redemptions fees may occur and to attempt to prevent them. BTS shall have no responsibility for early redemption fees that occur from the normal management of Client's account. In addition, Trust Company of America ("TCA") charges clients the following incidental special service fees for items considered outside the normal course of managing Client's account:

Check Distribution: \$20 per occurrence
Transfer/Termination Fee: \$50 + \$25 per asset (max \$250) for in-kind transfers
Wired Funds: \$25 per wire
Returned Check: \$35 per occurrence
Cancelled Check: \$20 per occurrence
Non-traditional Asset Custody: \$100 per asset per account annually
1035 Exchange: \$250 per exchange
Next DayMail Service: \$25 per request
SoloK Annual Maintenance Fee: \$50 quarterly
SoloK 5500 EZ Filing: \$125 per filing
SoloK Loan Fee: \$100 per loan

Please see the section entitled "Brokerage Practices" on page 16 for more information.

D) Termination and Refunds

The management agreement between the Client and BTS remains in effect until terminated by either party upon giving written notice at any time during the term of the agreement. Client accounts shall be terminated as of the date BTS receives written notice from the Client and specified by the Client. If the Client requests termination of the agreement within five business days of execution, the management and representative fees will be refunded in full. In the event of termination by Client during the first year of the agreement (other than within five business days following execution), at the discretion of BTS the first \$200 of the fee may not be refunded in order to cover start-up costs associated with establishing Client's account. The annual or quarterly fee (less \$200 if the termination occurs during the first year or quarter of Client's account) shall be refunded on a prorated basis. Unless the advisory fee is received by each renewal date, at the discretion of Advisor, the management agreement may automatically terminate.

Upon termination of the management agreement for any reason, BTS has seven business days to implement such termination. Due to delays by the Funds processing BTS's instructions to remove clients from the trading lists, if a signal is called during the period, Client's account(s) may or may not be moved into the signaled position. BTS assumes no responsibility for losses resulting from such delay. However, in the event that a client suffers a loss because the termination of the Client's account is delayed by BTS due to its negligence or malfeasance, BTS will reimburse the Client for such loss.

Item 6 – Performance-Based Fees and Side-By-Side Management

For managing the BTS Tactical Fixed Income Fund LLC BTS receives an annual investment management fee equal to 1.5% of the Private Fund's total assets, calculated monthly and payable quarterly. In addition, BTS is entitled to a performance allocation equal to 20% of the Private Fund's net new profits, both realized and unrealized.

Performance fee arrangements are limited to qualified clients and such fees may be subject to individualized negotiation with each such client. BTS will structure any performance or incentive fee arrangement subject to Section 205(a)(1) of the Investment Advisors Act of 1940 (The Advisors Act) in accordance with the available exemptions thereunder, including the exemption set forth in Rule 205-3. In measuring clients' assets for the calculation of performance-based fees, BTS shall include realized and unrealized capital gains and losses. Performance based fee arrangements may create an incentive for BTS to recommend investments which may be riskier or more speculative than those which would be recommended under a different fee arrangement. Such fee arrangements also create an

incentive to favor higher fee paying accounts over other accounts in the allocation of investment opportunities. BTS has procedures designed and implemented to ensure that all clients are treated fairly and equally, and to prevent this conflict from influencing the allocation of investment opportunities among clients.

Item 7 – Types of Clients

BTS provides portfolio management services to individuals, high net worth individuals, corporate pension and profit-sharing plans, Taft-Hartley plans, foundations, endowments, registered mutual funds, private investment funds, and trust programs.

BTS Tactical Asset Allocation Program accounts require an initial minimum of \$25,000.

BTS Strategic Asset Allocation Program accounts require an initial minimum of \$25,000.

BTS Multi-Strategy Portfolios accounts require an initial minimum of \$100,000 for accounts held at TCA, \$25,000 for variable annuity accounts.

BTS Diversified Income Program accounts require an initial minimum of \$50,000.

BTS Tactical Fixed Income Fund LLC requires a minimum investment of \$500,000.

Item 8 – Methods of Analysis, Investment Strategies and Risk of Loss

A) Methods of Analysis and Investment Strategies

BTS Programs, or investment strategies, are described in detail in Item 4 above. Each Client's Program is selected by the Client with the assistance of their financial representative. The Program selected should match the investment objectives and risk tolerance of the Client.

BTS obtains its analytical data from daily market price and volume movements, interest rate movements on bond, treasury bills, government securities, federal funds and prime rates, and various other printed sources it considers reliable. As Director of Research and Founder, Vilis Pasts has responsibility for developing and maintaining the investment models which create the "buy" and "sell" signals for BTS Tactical Asset Allocation programs. These models are updated quarterly, biannually, or annually, as economic conditions dictate. During the modeling process, the Director of Research may elect to consult with BTS employees and consultant(s) who are affiliated with the Research Department, such as CEO Matthew Pasts. The final determination of the "buy" and "sell" signals is derived from an interpretation of the investment models, and may be implemented by Vilis Pasts or Matthew Pasts.

BTS obtains input for the asset allocation percentages for the Strategic Asset Allocation Program from BCA Research, Morningstar, and Lombard Research, along with outside fund consultants, to fine tune the allocation percentages and fund selection.

BTS obtains data for the Tactical Asset Allocation Programs with the "Select" option from a number of sources. Research is performed by BTS to select top performing funds based on fund performance, manager review, availability of the fund for active trading and liquidity issues with particular custodians used for the Tactical Asset Allocation Select Programs.

BTS obtains data for the Multi-Strategy Portfolios using the resources of Decision Economics, Ibbotson, Morningstar, and Standard & Poor's Advisory Services along with BTS technical analysis as program inputs. In addition, BTS uses in-house technical models for the tactical portion of the portfolios with data analysis performed as described above.

Investing in securities involves risk of loss that clients should be prepared to bear.

B) Risk of Loss

Investing in bonds and high yield securities involves risks, including interest rate risk, credit risk, and reinvestment rate risk. Investing in small cap stocks involves additional risks, including operating risk and liquidity risk. Investing in international and emerging markets stocks involves additional risks, including political risk and currency risk. Investing in inverse mutual funds, which are designed to profit from declining securities prices, involves certain risks that may include increased volatility due to the funds' possible use of short sales of securities (borrowing securities in the belief the securities will decrease in value and then purchasing the securities later at a lower price) and derivatives such as options and futures, which give the options and futures owner the ability to purchase the securities later at a more beneficial price. The use of leverage, or borrowing money to purchase additional securities, by a mutual fund increases risk of the fund. The more a fund invests in leveraged instruments, the more the leverage will magnify any gains or losses on those investments.

BTS's Tactical and Multi-Strategy Programs can sometimes involve frequent trading. Frequent trading can affect investment performance since this may increase the potential for taxes from multiple purchases and sales of securities.

Item 9 - Disciplinary Information

Registered investment advisers are required to disclose all material facts regarding any legal or disciplinary events that would be material to your evaluation of BTS or the integrity of BTS's management.

On October 29, 2012, BTS offered, and the SEC agreed to accept, a settlement regarding alleged violations of section 206(4) of the Advisers Act and Rule 206(4)-1(A)(5). The SEC alleged that some advertisements for the BTS High Yield Program ("HYP") that claimed HYP had "no down years" were materially misleading because they failed to disclose with sufficient prominence and detail that, in 2004, a significant number of HYP clients would have experienced investment results that were materially different (i.e. they had a down year) from the results portrayed in the model, which applied HYP's buy/sell signals to the funds described in the advertisements. As part of the settlement, BTS neither admitted or denied the allegations.

Item 10 - Other Financial Industry Activities and Affiliations

A) Activities

Some BTS representatives and employees are registered with BTS Securities Corporation ("BTSC"), a registered broker-dealer with the Financial Industry Regulatory Authority ("FINRA"). See Item 10 C below for more details.

C) Affiliations

BTSC is an affiliate of BTS. BTS' advisory programs are marketed directly by officers and employees of BTS and through solicitors ("sales representatives") some of whom may be associated with BTSC. BTS compensates sales representatives and/or broker/dealers employing them by sharing a portion of the advisory fee paid by the clients to BTS (0% to 1.5% of the fee paid to BTS on an ongoing basis). Vilis Pasts serves as a Director of BTSC and Matthew Pasts serves as President and a Director of BTSC. Gary Shilman serves as Secretary and a Director of BTSC. See Item 11 B below for potential conflicts.

BTS is the Managing Member of the BTS Tactical Fixed Income Fund LLC, a private investment company or "hedge fund". See Item 11 B below for potential conflicts.

BTS is the investment adviser to the BTS Bond Asset Allocation Fund and the BTS Diversified Income Fund, open-end investment companies, or mutual funds. See Item 11 B below for potential conflicts.

BTS Insurance Agency, Inc., an affiliate of BTS, is an insurance agency licensed with the insurance department of several states, selling variable annuities and life insurance products. BTS' advisory programs are marketed directly by officers and employees of BTS and through sales representatives, some of whom may be associated with BTS Insurance Agency. Vilis Pasts serves as the President and sole owner of BTS Insurance Agency.

Item 11 – Code of Ethics

A) Code of Ethics

BTS strives to observe exemplary standards of openness, integrity, honesty and trust. Accordingly, we have adopted Code of Ethics for the purpose of deterring wrongdoing and promoting: 1) honest and ethical conduct; 2) full, fair, accurate, timely and understandable disclosure in reports and documents; 3) compliance with applicable laws (including federal and state securities laws), rules, and regulations. BTS and its employees take the best interest of clients ahead of our own.

All employees are responsible for safeguarding nonpublic information about securities recommendations, client holdings, and other client information. Client information may only be shared with third parties that BTS works with for the normal management of client accounts.

BTS will provide a copy of its Code of Ethics to any client or prospective client upon request.

B) Participation or Interest in Client Transactions

The officers and registered representatives of BTS Securities Corporation, who are also employees or officers of BTS, may receive a commission from the sale of a mutual fund or variable annuity to a person who may also be a client or potential client of BTS.

BTS has a conflict of interest in selecting the mutual funds to be used for BTS Programs where Client assets are custodied at Trust Company of America (“TCA”). BTS pays a custodial fee for accounts custodied at TCA. Certain funds that pay 12b-1 commissions of up to 25 basis points per year to TCA offset the custodial fee that BTS pays to TCA, thereby lowering the custodial fee that BTS pays. When selecting the mutual funds to use in these Programs, the payment of 12b-1 commissions is not a factor in deciding to select a fund. In deciding between two funds where everything else is equal, BTS may select the fund that pays 12b-1 fees.

BTS may select the BTS Funds for clients with assets at Trust Company of America. A conflict exists as the BTS Funds are affiliated with BTS. Where BTS Client assets are invested in the BTS Funds, the fees earned by BTS from the BTS Funds are credited towards the Client's BTS advisory fees as determined by the BTS Client Agreement. In addition, the BTS Funds pay 12b-1 commissions of up to 25 basis points per year to TCA that offset the custodial fee that BTS pays to TCA, thereby lowering the custodial fee that BTS pays.

C) Similar Securities

BTS, as the Managing Member of the BTS Tactical Fixed Income Fund LLC, may purchase the same or similar securities for the Private Fund at the same time as BTS affects transactions for other BTS Clients. The Private Fund may also affect purchase and sales of securities independently of the signaling of a move for BTS Clients.

BTS, as the investment adviser to the BTS Funds, may purchase the same or similar securities for the BTS Funds at the same time as BTS affects transactions for other BTS Clients. The BTS Funds may also affect purchase and sales of securities independently of the signaling of a move for BTS Clients.

BTS, BTS Securities Corporation and their respective officers, directors and employees may also purchase the same or similar Funds for their own accounts, and may participate in the investment programs provided by BTS.

In situation where BTS is purchasing or selling the same securities for either the Clients in the BTS Programs, the Private Fund, or the BTS Funds, BTS manages the orders in such a way as to ensure that one Client will not be treated in such a way so as to create a disadvantage or loss to another Client. This includes policies and procedures which include (but is not limited to) the following; treatment of client orders fairly and in due turn, the maintenance of confidential

information, fair allocation of trade executions when trading for multiple Clients, and equal disclosure of relevant information to clients.

D) Recommending Securities

In order to prevent a conflict of interest, Clients' interests are taken ahead of the directors, officers and employees, including registered representatives, of both BTS and BTS Securities Corporation. BTS personnel may act on BTS advice for their own accounts only after an exchange signal has occurred and exchanging client accounts has commenced. At times other than the signaling of a move, BTS personnel may effect transactions in securities for their own accounts independent of a signal.

Item 12 – Brokerage Practices

Selecting Brokerage Firms

As the investment advisor for the BTS Funds, BTS selects the broker or dealer to be used in placing trade orders for the BTS Funds. The selection of broker dealer to be used is determined based on a number of factors including, but not limited to, the ability to execute trades in a manner beneficial to BTS, the commissions or spreads charged by the broker dealer, and other services provided by the broker dealer.

Certain BTS clients participate in wrap fee programs. These clients are referred to as "Wrap Accounts." Transactions for Wrap Accounts participating in wrap fee programs are arranged only through the Wrap Sponsor and commission charges, custodial and other fees are included within the total wrap-fee. Wrap Accounts participating in wrap fee programs will not benefit from the possible advantages of aggregating with accounts other than those in the same wrap fee program.

BTS is unable to aggregate trades for Wrap Accounts with any other BTS Clients. Wrap Accounts and other BTS Clients will generally trade separately and not necessarily at the exact same time. Wrap Accounts and other BTS Clients may therefore receive different execution prices. Wrap Accounts and other BTS Clients will be traded on a rotational basis. Transactions for all clients using each respective wrap fee program will typically be aggregated together and receive pro rata pricing respectively.

At the request of the Client, BTS will suggest a financial representative whose office is located in the general area of the Client's address. The maximum representative fee percentage that BTS pays is the same for all financial representatives.

Soft Dollars

BTS does not receive soft dollar benefits from the custodians we use or from the brokers we use to execute transactions.

Item 13 – Review of Accounts

A) Periodic Reviews

Tactical Programs are constantly under review due to the technical model driven nature of the programs. Strategic Asset Allocation and Multi-Strategy Portfolio accounts are reviewed on a quarterly basis.

There are 7 reviewers: 6 Client Account Managers and 1 Supervisor. Client Account Managers duties include confirming the position and value of client assets on a regular basis and after every exchange of a client's account. Each Client Account Manager is assigned approximately 2,500 accounts. The supervisor reviews the work of the Client Account Managers.

A) Regular Reports

Clients receive a written renewal notice at least one month prior to renewal date of their Agreement and a notice confirming renewal one week after renewing the Agreement. Clients also receive a notice following a move. Clients

whose accounts renew automatically only receive a notice confirming renewal one week after renewing their Agreement. BTS does not send performance reports or other types of reports specific to Client accounts to Clients.

Clients receive monthly or quarterly statements from their account Custodian. Custodians are not related to BTS.

Item 14 – Client Referrals and Other Compensation

BTS advisory programs are marketed directly by officers and employees of BTS and through Sales Representatives who may be associated with BTS Securities Corporation (an affiliate of BTS), investment company affiliated brokerage firms or other brokerage firms. Usually, the sales representative is a licensed sales person employed by a broker/dealer. As such, the representative may receive, or has received, commissions for the Client's initial investment in the mutual funds and subsequent commissions depending on the advisory program entered into by the Client. BTS does not receive any portion of the commissions.

BTS compensates sales representatives, broker/dealers, and/or other investment advisors employing them by sharing a maximum of up to a 1.5% Annual Representative Fee pursuant to the management agreement with the Client based on the value of Client's account on a continuing basis, and the broker/dealer or other soliciting firm's individual representative (if applicable) will receive all or some of such compensation from the firm. In addition, BTS has revenue sharing agreements with some brokerage firms in which BTS pays up to 5% of the advisory fee earned by BTS to the brokerage firm. BTS occasionally gives marketing support on a case-by case-basis to broker/dealers and/or sales representatives of broker/dealers in the form of cash payments for the marketing of BTS advisory services. Some representatives may receive consulting fees from BTS for providing consulting services to BTS. Since the sales representative may also handle the Client's account directly, or be affiliated with the broker/dealer handling the Client's account, a potential conflict of interest exists. Furthermore, solicitation agreements between BTS and regional directors may exist where the regional directors receive a percentage of the management fee paid to BTS.

Item 15 – Custody

BTS technically has "custody" of client assets due to BTS' ability to deduct advisory fees from client accounts. BTS may also charge clients more than \$1,200 in fees, six months or more in advance. Assets are held directly at a custodian that is not affiliated with BTS.

Clients should receive at least quarterly statements from the broker dealer, bank or other qualified custodian that holds and maintains client's investment assets. Clients should carefully review those statements and compare those official custodial records to any statements that we may provide to you. Our statements may vary from custodial statements based on accounting procedures, reporting dates, or valuation methodologies of certain securities.

As the managing member of the BTS Tactical Fixed Income Fund, LLC, a private investment fund (the "Private Fund"), BTS is considered as having custody of the assets invested in the Private Fund due to BTS's ability to control the assets of the Private Fund. However, assets are held at an independent custodian that is not affiliated with BTS. The Private Fund has an independent administration company that monitors transactions of the Private Fund.

Item 16 – Investment Discretion

BTS receives discretionary authority from the client at the outset of an advisory relationship by completing and signing the BTS Client Agreement. Depending on the advisory program chosen by a client, discretion may be limited to the timing of transactions and the amount of securities to be bought and sold. In other programs, BTS has discretion to decide when to initiate transactions, select the identity of securities to be bought and sold and the amount of securities to be bought and sold. In all cases, however, such discretion is to be exercised in a manner consistent with the stated investment objectives for the particular advisory program client has selected.

When selecting securities and determining amounts, BTS observes the investment policies applicable to each advisory

program, and limitations and restrictions of the clients for which it advises. For registered investment companies, BTS's authority to trade securities may also be limited by certain federal securities and tax laws that require diversification of investments and favor the holding of investments once made.

Item 17 – Voting Client Securities

BTS does not vote proxy statements for any Clients in BTS Programs. Proxy statements are sent directly to Clients by the custodians.

Proxies for the BTS Funds:

BTS serves as investment adviser to open-end investment companies under the Northern Lights Fund Trust. The BTS Funds may make investments in other investment companies that are not affiliated (“Underlying Funds”). The BTS Funds are required by the Investment Company Act to handle proxies received from Underlying Funds in a certain manner. In particular it is the policy of BTS to vote all proxies received from the Underlying Funds in the same proportion that all shares of the Underlying Funds are voted, or in accordance with instructions received from Fund shareholders, pursuant to Section 12(d)(1)(F) of the Investment Company Act. Proxies received on behalf of the BTS Funds that represent securities that are not investment companies will be voted according to BTS' proxy voting policies.

All proxies received from Underlying Funds will be reviewed with the Chief Compliance Officer or appropriate legal counsel to ensure proper voting. After properly voted, the proxy materials are placed in a file maintained by the Chief Compliance Officer for future reference. The Chief Compliance Officer is ultimately responsible for ensuring that all proxies received by BTS are voted in a timely manner and in a manner consistent with the established BTS' policies. Although the majority of proxy proposals can be handled in accordance with BTS' established proxy policies, BTS recognizes that some proposals require special consideration that may dictate that exceptions are made to its general procedures.

Clients may obtain a copy of BTS's complete proxy voting policies and procedures upon request. Clients may also obtain information from BTS about how BTS voted any proxies on behalf of the BTS Funds.

Item 18 – Financial Information

Registered investment advisers are required in this Item to provide you with certain financial information or disclosures about BTS's financial condition. BTS has no financial commitment that impairs its ability to meet contractual and fiduciary commitments to clients, and has not been the subject of a bankruptcy proceeding. BTS's audited balance sheet is attached to this brochure.

Independent Auditors' Report

The Board of Directors
BTS Asset Management, Inc.
Lexington, Massachusetts

We have audited the accompanying balance sheets of BTS Asset Management, Inc. as of December 31, 2012 and 2011, and the related notes.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of this financial statement in accordance with U.S. generally accepted accounting principles; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of the financial statement that is free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on this financial statement based on our audits. We conducted our audits in accordance with U.S. generally accepted auditing standards. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statement is free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statement. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statement, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statement in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statement.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the balance sheets referred to above present fairly, in all material respects, the financial position of BTS Asset Management, Inc. as of December 31, 2012 and 2011, in accordance with U.S. generally accepted accounting principles.

BTS ASSET MANAGEMENT, INC.

Notes to Balance Sheets

Note 1 - Nature of Operations and Summary of Significant Accounting Policies

BTS Asset Management, Inc. (the “Company”) is registered with the Securities and Exchange Commission as an investment advisor under the Investment Advisors Act of 1940. The Company, which was established in 1979, studies general investment market conditions and, in return for a fee, renders advice as to when investment balances should be moved or transferred from one investment category to another.

A summary of the accounting policies consistently applied in the financial statements follows:

Financial Statement Presentation

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Cash and Cash Equivalents

The Company considers all highly liquid debt instruments purchased with maturities of three months or less to be cash equivalents. In addition, the Company maintains its cash and cash equivalents at a financial institution in accounts, which, at times, may exceed federally insured limits. The Company has not experienced any losses in these accounts. The carrying amounts for cash equivalents approximate fair value because of the short maturity, high liquidity, and low risk of default associated with these instruments

Revenue Recognition

Advisory fees are charged on a quarterly or annual basis and received in full generally within one month of the contract execution with a client.

Company policy is to defer recognition of the advisory fee income, which is amortized (less a nominal set-up charge) on a straight-line basis over the life of the contract.

During 2010, the Company entered into an agreement with an unrelated Trust Company to provide advisory services. The Company receives 1% of total net assets that are under their management.

Investment income represents primarily dividend income earned, realized and unrealized gains and losses on mutual fund investments, brokerage trading accounts and other investments.

Commissions

Commission expense represents the portion of advisory fees paid to brokers at such time as advisory fees are collected from clients. The commission expense is typically equal to 50% and in some cases can be increased up to 70% of the advisory fee charged. The recognition of the commission expense is deferred as prepaid commissions and recognized in the same manner as advisory fee income.

BTS ASSET MANAGEMENT, INC.

Notes to Balance Sheets

Note 1 - Nature of Operations and Summary of Significant Accounting Policies (Continued)

Trading Marketable Securities

Trading marketable securities consist of mutual funds and high-grade equity securities. The cost of investments sold is determined on the specific identification or first-in, first-out method.

Advisory Fees Receivable

An allowance for doubtful accounts may be established based on a detailed review of the advisory fees receivable. The factors influencing management's judgment of the adequacy of the allowance for doubtful accounts include historical losses, knowledge of the customer's business and current economic conditions. Advisory fees receivable are written off at the time management feels that the possibility of collection is remote. At December 31, 2012 and 2011, there was no allowance for doubtful accounts.

Property and Equipment

Property and equipment are stated at cost. Major additions are capitalized, while maintenance and repairs are charged to expense as incurred. Depreciation is provided over the assets' estimated useful lives of three to seven years using the straight-line method.

Income Taxes

The shares of the Company are owned by BTS Asset Management Trust (the "Trust"), a Massachusetts Business Trust. The Trust, with the consent of its shareholders, has elected to have the Company be treated as an S Corporation for Federal income tax purposes, whereby all income and losses of the Company are reported by the shareholders on their individual tax returns. For state tax purposes, Massachusetts requires the income and losses of the Company to be reported on the shareholders' individual tax returns. The Company is subject to state excise taxes and a state entity level tax.

Uncertain Tax Positions

The Company accounts for the effect of any uncertain tax positions based on a "more likely than not" threshold to the recognition of the tax positions being sustained based on the technical merits of the position under scrutiny by the applicable taxing authority. If a tax position or positions are deemed to result in uncertainties of those positions, the unrecognized tax benefit is estimated based on a "cumulative probability assessment" that aggregates the estimated tax liability for all uncertain tax positions. Interest and penalties assessed, if any, are accrued as income tax expense.

The Company has identified its tax status as a corporation electing to be taxed as a pass-through entity as a tax position; however, the Company has determined that such tax position does not result in an uncertainty requiring recognition. In addition to the Company's tax status, the Company has other tax positions that have been determined to be highly certain and, therefore, no reserve for unrecognized tax liability is deemed necessary. The Company is not under examination by any taxing jurisdiction. The Company's Federal and state income tax returns are generally open for examination for three years.

BTS ASSET MANAGEMENT, INC.

Notes to Balance Sheets

Note 1 - Nature of Operations and Summary of Significant Accounting Policies (Continued)

Fair Value Measurements

The Company follows the fair value standard which is defined as the exchange price that would be received for an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date. Valuation techniques used to measure fair value under this change must maximize the use of observable inputs and minimize the use of unobservable inputs. The standard describes how to measure fair value based on a three-level hierarchy of inputs, of which the first two are considered observable and the last unobservable.

Investments measured and reported at fair value are classified and disclosed in one of the following categories:

Level 1 - Quoted prices are available in active markets for identical investments as of the reporting date. The type of investments included in Level 1 include mutual funds and publically traded equity investments.

Level 2 - Pricing inputs are other than quoted prices in active markets, which are either directly or indirectly observable as of the reporting date, and fair value is determined through the use of models or other valuation methodologies. Investments which are generally included in this category include corporate bonds and loans and public company equity securities with legal restrictions.

Level 3 - Pricing inputs are unobservable for the investment and include situations where there is little, if any, market activity for the investment. The inputs into the determination of fair value require significant management judgment or estimation. Investments that are included in this category generally include investments in privately held portfolio companies, promissory notes to privately held companies and interests in other investment partnerships.

At December 31, 2012 and 2011, trading marketable securities and the investment in the BTS Asset Allocation/High Yield Fund LLC (see Note 2) are all considered Level 1 as the underlying securities are primarily in mutual funds traded in active markets.

Subsequent Events

The Company has evaluated subsequent events through March 11, 2013, the date the financial statements were authorized to be issued.

BTS ASSET MANAGEMENT, INC.

Notes to Balance Sheets

Note 2 - Investment in LLC

The Company is the managing member of BTS Asset Allocation/High Yield Fund LLC (the "LLC"). At December 31, 2012 and 2011, the investments which made up the investment in the LLC consisted of cash and cash equivalents, various high yield securities and mutual funds with readily available market values. The LLC is required to pay BTS a monthly management fee at an annual rate of 1.5% of the assets under management, calculated monthly and payable quarterly. Management fees earned were approximately \$68,000 and \$62,000 for December 31, 2012 and 2011, respectively, which are included in the carrying value of the investment. At December 31, 2012 and 2011, approximately \$306,000 and \$181,000, respectively, of advances were made to the LLC which are included in advances to related parties.

Note 3 - Margin Loan

The Company has available a thirty-day margin investment account to utilize in its investments in mutual funds and high yield corporate securities. The margin loan cannot exceed 50% of the investment market value. If there is a decline in the market value of the investment and the margin loan then exceeds 50%, the Company would have to pay down the loan within a specified period of time so that it is in compliance. There was no outstanding balance on the margin loan at December 31, 2012 or 2011.

Note 4 - Related Party Transactions

As of December 31, 2012 and 2011, the Company had \$42,082 in non-interest bearing advances to various related companies which are controlled by the majority shareholder of the Company.

The Company paid BTS Securities Inc., a company controlled by the majority shareholder of the Company, approximately \$43,000 in 2012 and 2011 for signature guarantee services.

Note 5 - Commitments and Contingencies

The Company leases its office facilities under a non-cancelable operating lease. The lease provides for fixed monthly rentals plus escalation for real estate taxes and operating costs. The lease has monthly base rental expense of \$22,847 increasing to \$25,562 over the life of the lease expiring in November 2014. The Company has an option to extend the lease for five years.

The Company also leases equipment under various operating leases. Lease terms expire at various times through June 2014.

BTS ASSET MANAGEMENT, INC.

Notes to Balance Sheets

Note 5 - Commitments and Contingencies (Continued)

Future minimum lease payments on operating leases as of December 31, 2012 are as follows:

2013	\$	346,000
2014		<u>291,000</u>
Total	\$	<u><u>637,000</u></u>

From time to time, the Company is involved in legal proceedings and litigation arising from the ordinary course of business. In the opinion of management, the outcome of such proceedings and litigation will not materially affect the Company's financial position.

Note 6 - Profit Sharing

The Company has a contributory 401(k) profit sharing plan. To be eligible to participate in the plan, an employee must complete six months of service. The Company made contributions of approximately \$133,000 and \$202,000 during 2012 and 2011, respectively.

Note 7 - Concentration of Credit Risk

At December 31, 2012 and 2011, one mutual fund accounted for 92% and 93% of the trading marketable securities, respectively.
